

Stephen J. Wuori

Executive Vice President, Liquids Pipelines, Enbridge Inc.

Stephen J. Wuori was appointed Executive Vice President, Liquids Pipelines effective January 9, 2008. His most recent prior position was Executive Vice President, Chief Financial Officer & Corporate Development effective May 1, 2006. Prior to that, he was Group Vice President, Chief Financial Officer, which he held since April 1, 2003.

Stephen has responsibility for all liquids pipelines businesses in North America, including the Enbridge Pipelines crude oil mainline system and the Norman Wells, Athabasca and Saskatchewan gathering and feeder systems in Canada; and the Lakehead mainline system, the Midcontinent system and North Dakota gathering and feeder system, all held in Enbridge Energy Partners, as well as interests in the Spearhead, Chicap, Mustang, Toledo, Frontier and Olympic pipelines.

During his time as Executive Vice President, Chief Financial Officer & Corporate Development Stephen was responsible for all the financial affairs of the company, including Treasury, the Controller's area, Risk Management, Audit Services, and the Financial Services group which includes Investor Relations, Pension Fund Investment and Tax. He was also responsible for corporate planning, mergers, acquisitions and business development.

Prior to his appointment as CFO in 2003, he was Group Vice President, Planning & Development. His mandate was to lead the critical corporate aspect of mergers, acquisitions and business development. He was also responsible for northern pipeline development and long-range planning.

Prior to that, Stephen had 20 years of experience in the liquids pipelines business at Enbridge. He served as President of Enbridge Pipelines Inc. and Lakehead Pipe Line Partners, L.P. (now Enbridge Energy Partners, L.P.) from 1997 to 2000, and was responsible for the acquisition and integration of several feeder pipelines into the overall Enbridge system, and for optimizing savings from the implementation of incentive tolling.

In these positions, Stephen was responsible for ensuring that the company's extensive crude oil and liquids pipeline operations continued to deliver cost effective, reliable and efficient service to North American customers.

Stephen has worked within the Enbridge group of companies since 1980.

Stephen serves on the Boards of Directors of publicly traded Enbridge Income Fund and Enbridge Energy Partners, LP (Houston) and of several other Enbridge affiliates. He is past-chair and current member of the Board of the Alberta Shock Trauma Air Rescue Society (STARS). He is a member of Alberta Economic Development Authority, Energy Resource Committee; current Chair of the Canadian Energy Pipeline Association; and is Vice-Chair of the Board/Executive Committee of the Association of Oil Pipe Lines. He is a member of the Pipeline Committee of the American Petroleum Institute. Stephen holds a Bachelor of Science degree in Civil Engineering from Michigan Technological University and is a graduate of the Advanced Management Program at the Harvard Business School.
